eMIMS Mobile
and register using your
inspection credentials**

eMIMS Mobile

Description

eMIMS Mobile augments the functionality of eMIMS, the proprietary inspection database for McCright & Associates, LLC. eMIMS Mobile allows landlords and tenants participating in the HCVP of local housing authorities serviced by McCright & Associates to access their scheduled and inspected HAP properties from their mobile devices. Then can search by event ID or property address. The eMIMS Mobile directly interfaces with inspection results data and the collected information regarding the deficiencies cited by the inspector. Users also have the ability to view photos of the cited deficiencies.

eMIMS Mobile requires that users register with the landlord ID or the tenant ID provided by the public housing authority from which the HCVP voucher is issued.

- Scheduled inspections are available with scheduled date and time
- Completed results are available with inspection status and deficiency information
- eMIMS Mobile can operate only with a cellular or wireless connection

- eMIMS mobile will synchronize data once the connection is established.

About eMIMS Mobile

eMIMS Mobile provides the tools necessary to track and inform participants of the daily results of inspections conducted by McCright & Associates, LLC. Streamlined, efficient, and comprehensive, this mobile app affords maintenance personnel, tenants, and landlords a quick and ready access to results, which reduces the window between inspection and abatement. User-friendly with sort features and up-to-date property information, the participant is able to maintain the property and adhere to HUD guidelines as specified by the local PHA admin plan and HUD Section 8 standards

eMIMS Mobile also provides direct access to www.results.mccright.com for self-certification where available, and all participant notifications.

Accurate, up-to-date inspection information is always at your fingertips.
